Nairobi, Kenya | 0720538053 | okongomarvin971@gmail.com

[LinkedIn](#) | [GitHub](#) | [YouTube](#)

Results-driven software developer with experience in modern web and mobile technologies. Proficient in JavaScript, Python, PHP, and Node.js ecosystems including React, React Native, Laravel, and Fastify. Strong background in database management across MySQL, MongoDB, and PostgreSQL. Experienced in collaborating with cross-functional teams to build robust applications that solve complex business problems.

TECHNICAL SKILLS

Software development: JavaScript : React, React Native, NodeJS, Adonisjs, TypeScript.

Python: Flask, Django. PHP: Laravel, Filament. Git, WordPress, Figma.

Database: MySQL, MongoDB, Postgress

Cloud and ERP: AWS, Docker

EXPERIENCE

Pay serve Limited

Software Developer

04/2024 – present

- At this startup, I developed and maintained web applications using React and React Native for frontend and Node.js with Fastify for backend services and APIs.
- Implemented MongoDB database solutions for efficient data storage and retrieval
- Built CI/CD pipelines using Jenkins for automated testing and deployment
- Containerized applications using Docker and deployed on AWS infrastructure
- Maintained legacy PHP/Laravel applications while transitioning to modern tech stack
- Collaborated with cross-functional teams to deliver high-quality software solutions

Belva Digital

Software Developer

12/2022 – 03/2024

- Developed web applications using Python and Laravel, enhancing client user experiences
- Designed and implemented MySQL database solutions for data-intensive applications
- Created and customized WordPress sites to meet specific client requirements
- Optimized database queries and application performance across multiple platforms
- Participated in code reviews and implemented best practices for maintainable code
- Collaborated with design team to implement responsive UI/UX solutions

Deveint Limited

Software Developer

07/2022 – 10/2022

- Administered network infrastructure using Python-based monitoring tools
- Developed React Native mobile applications for internal system monitoring
- Created and maintained WordPress sites for company and client projects
- Built custom PHP/Laravel applications for internal workflows and process automation
- Managed user accounts and access permissions across multiple platforms
- Assisted in cloud migration projects and infrastructure upgrades

TECHNICAL PROJECTS

Crypto Website

[Demo](#)

- A website for crypto enthusiasts.
- Exploring Advanced HTML, CSS animations
- Responsive and interactive website

Social Media Platform

[Demo](#)

- A simple social media app where users can post what's on their mind
- Reactjs, Node, MongoDB, Tailwind
- Real-time chat using WebSocket
- Secure file upload with AWS S3
- Implemented content moderation system

Food Delivery App

[Demo](#)

- A local food delivery application to help local food business reach their customers
- React.js, Typescript, Next.js, Tailwind and Nodejs
- Secure authentication with JWT
- MongoDB for flexible data modeling
- Implemented role-based access control
- Currently working on its mobile app using React Native and Node

EDUCATION

Moringa School

Nairobi, Kenya

Full Stack Software Development

12/2023 – 06/2024

Technical University of Kenya

Nairobi, Kenya

Business Information Technology

10/2019 – 12/2023
